“Top winter hideaway in North America!”

-National Geographic Adventure Magazine

Wake up to grandeur at your doorstep. Enjoy the day exploring the seemingly endless wilderness, or relax in the charming and beautifully preserved log lodge. After dinner, grab a book from the library and curl up by the cozy fireplace with a cup of hot cocoa, or wind down on the front porch with a glass of wine. Friendly, attentive staff ensure you're well looked after.

Stays include hearty breakfasts, healthful lunches, high tea, and sumptuous dinners. The authentically rustic, yet surprisingly luxurious main lodge and three private cabins can accommodate parties up to 22, making Skoki Lodge an excellent choice for corporate retreats, families, and romantic weekends.
